USE QUEEN LILY SOAP

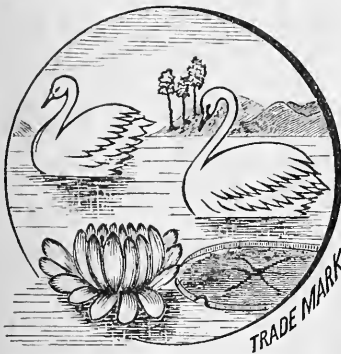

GUARANTEED TO WASH WITHOUT RUBBING.

THE QUEEN LILY SOAP

Has extraordinary merits, and is in good repute with the public, and that is why it is so extensively imitated and counterfeited.

These counterfeits resemble the Queen Lily Soap in appearance and style of packing only. They lack the purity and general excellence of the genuine.

This notice is necessary, as vilely injurious and dangerous imitations, liable to produce chronic inflammation of the skin, are often substituted for the Queen Lily, because they pay a larger profit.

The price of the Queen Lily is as low as consistent with the cost of making such a high grade of pure soap. The price, compared to the quantity and the size of the cakes, makes it the cheapest soap for everybody and for every want. Consumers have simply to insist upon having the Queen Lily, remembering that if any substitute is offered it is for the advantage of the seller.

The Queen Lily is the finest soap known for laundry and general household use. It is made of vegetable oils, and everything used in its manufacture is the purest and best, so it is absolutely pure.

Ladies will find this soap especially adapted for washing laces, infants' clothing, silk hose, cleaning gloves and all articles of fine texture and delicate color, and for the various uses about the house that daily arise requiring the use of soap that is above the ordinary in quality. For the bath, toilet or nursery it is preferred to most of the soap sold for toilet use, being purer and much more pleasant and effective, and possessing all the desirable qualities of the finest unadulterated White Castile Soap. Respectfully,

FISCHBECK & CLOOTZ,

Manufacturers of all kinds of Toilet and Laundry Soaps.

IRVING INSTITUTE

SELECT BOARDING AND DAY SCHOOL
FOR YOUNG LADIES

1036 Valencia Street, San Francisco, Cal.

IRVING INSTITUTE, under the management of the Rev. EDWARD B. CHURCH and wife, has been well known for many years past as a thorough training-school and refined Christian home for young ladies. It is situated at the corner of Valencia and Hill streets, San Francisco, in a portion of the city highly esteemed for its climate and healthfulness. It has always maintained a high standard of scholarship, and in consequence has enjoyed a continuous and steadily increasing prosperity. While, by means of the Valencia street cable-cars, it is within a few minutes' ride of the heart of the city, it is yet only five minutes' walk to the hills, where the full benefits of the country can daily be enjoyed.

The buildings are commodious and sunny, and equal in convenience, elegance, and comfort to those of any other institution on the Pacific Coast. The schoolrooms, reception rooms, music and art rooms are all well adapted for their uses, while the Assembly Hall, twenty-eight by sixty-three feet in dimensions, gives fine opportunity for indoor exercises, gymnastics and dancing, and is well adapted for rhetorical exercises, musicales and lectures. The library is supplied with over one thousand choice volumes; and the reading-room, with the leading periodicals, is bright and cheery, and opens into the plant conservatory.

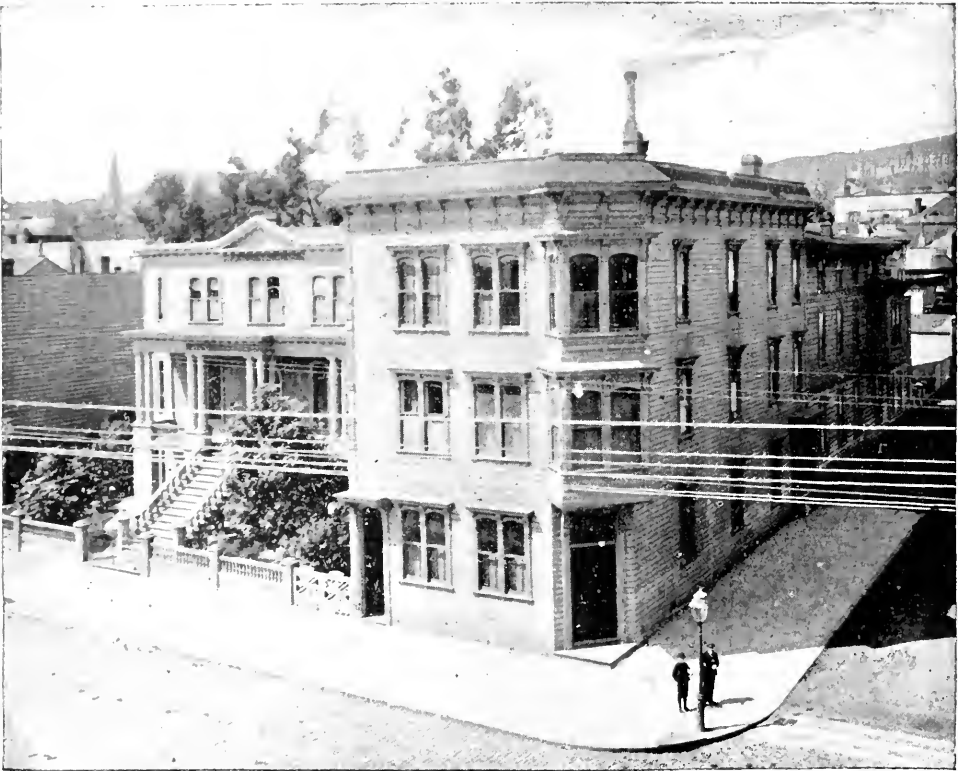

The regular course of study includes all the usual preparatory subjects taught according to the most approved methods, with such of the higher or collegiate studies as may be necessary for an intelligent understanding of the best current literature on philosophical and scientific subjects. The modern languages are taught by the natural method, conversationally and practically, giving ease and freedom in the use of the foreign tongue. The monthly musicales, rhetorical recitals and home receptions enable the young ladies to put in practice the systematic instruction given by the lady principal in manners and social usages, and to acquire that ease and grace of bearing which is so essential to a lady.

The young ladies, at the request of parents, are taken to concerts and lectures, and to hear the most noted singers and actors in opera and the standard drama. They also have access to the libraries, cabinets and art collections of San Francisco. The Institute has a cabinet of minerals and geological specimens, chemical and philosophical apparatus, a compound microscope and an astronomical telescope, and photographs of the best specimens of European architecture, sculpture and painting. The classes in drawing and painting are conducted on the principles of the best European art schools, by teachers thoroughly qualified, and under the over sight of the lady principal, who spent some time in Europe in special study of the fine arts and art methods.

The discipline of the school, without being harsh or severe, is all that the most careful parent could wish. Truthfulness, economy and right habits of thought and action are inculcated and encouraged. The pupils express their thoughts and wishes freely to principals and teachers, as to friends who have their best interest at heart, and response is given accordingly. This cordial frankness and mutual sympathy is a marked characteristic of the school, and is the surest foundation of a happy school-life and a true culture.

PREFACE.

This, the thirty-fourth issue of LANGLEY'S SAN FRANCISCO DIRECTORY, is presented with the hope that it will meet with the same liberal measure of approval which has been accorded to its predecessors. There is a difficulty in the way of making an accurate directory of this city, which is mentioned here in the hope that when the situation is understood by the powers that be they will apply the remedy. The street numbers are badly mixed up. There are 372 numbers duplicated, 572 which are assigned to the wrong blocks, in some cases a mile from where they should be, and 278 which are assigned to the wrong side of the street, odd numbers on the even side, and *vice versa*. Post street has No. 225 repeated three times, 223 and 235 twice. There are two 50 blocks on Oregon street. On Stevenson street, in the 1100 block, occur Nos. 2, 50 and 177. On Point Lobos Avenue, in the 1000 block, occur Nos. 9, 30 and 4000. On West Mission street, which is only one block long, the numbers jump from 84 to 1652.

Most of these figures have been obtained from officials of the San Francisco Post Office, to whom acknowledgment is made for many favors and much valuable assistance.

It is gratifying to know that many residents of the Mission have taken the matter up and petitioned the Board of Supervisors to correct the street numbers in their part of the city. The evil, however, is not confined to the Mission. It exists all over the city, and is the cause of a great deal of confusion to the public, and is especially troublesome to the Post Office and to this Directory. It would seem that the proper municipal authorities should direct an official numberer to affix the correct number to every building which is now without it.

The system of numbering the streets is good, but residents do not adhere to it, and are not compelled to do so by the officials.

THE DIFFERENCE.

Business Men and the public generally would do well to make a study of the difference

BETWEEN GOOD AND BAD PRINTING.

People are much more likely to read a NEAT circular, attractively gotten up, than one hardly legible; having no style about it and printed on poor stock. For work of the HIGHEST GRADE

Colleges and Private Schools.

Notwithstanding the excellence of the free public schools of the city and State, their exemption from direct cost to the pupil or parent, and the great interest taken in them by the public as the nurse and strength of our free institutions, colleges and private schools of great wealth, popularity and importance rise and prosper. That such institutions exist, shows the great interest taken in educational matters. The public and private systems are rivals, each stimulating the other, and setting examples of enterprise, management, salaries, edifices, progress and standard of scholarships. There are in San Francisco over one hundred private schools, in which term are included the select school of a few pupils, the seminaries, commercial schools, academies, convent schools, and colleges, with their thousand students.

IRVING INSTITUTE.—A collegiate boarding and day school, located at 1036 Valencia, where young ladies are prepared for the universities, or graduated on completing its full academic course. The buildings afford accommodations for fifty boarding pupils. The attendance of the past year exceeded one hundred and twenty-five. It is now in its sixteenth year, and has an alumnae association of nearly one hundred. Its musical department is a marked feature of the school, there being constantly from sixty to seventy music pupils in attendance. Rev. Edward B. Church, M. A., Principal.

SACRED HEART COLLEGE.—The Sacred Heart College, located on the corner of Eddy and Larkin streets, is a wooden structure of three stories high and basement, and covering a large portion of the block. The classes are divided into eight grades, besides the three years course for the graduates. Music, painting, needlework and the modern languages are taught as extras for a very moderate fee. The Presentation Sisters are the teachers, and the present Superior is Mother Mary Josephine.

SACRED HEART PRESENTATION CONVENT.—The Sacred Heart Presentation Convent is a fine brick building of ample proportions, located at the corner of Taylor and Ellis streets. This is a chartered college by act of the Legislature and empowered to confer graduating certificates. The school is free of charge to all denominations. It was opened on the 24th of May, 1869, and the number of pupils increasing, made it necessary to enlarge the building, and in 1870 the portion fronting on Ellis street was added. Later on a wing within the enclosure was built, to afford more ample facilities for the improvement of pupils in music, needlework, painting, drawing, etc. The institution contains about five hundred pupils and a teaching staff of nineteen Sisters, and is under the charge of the Mother Superior of the Presentation Order in this City.

SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventually reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are one hundred and sixty-seven districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post-Office.

THE ASTRONOMICAL SOCIETY OF THE PACIFIC.—(Incorporated.) Rooms at 819 Market street, San Francisco.

This society was founded February 7, 1889, as a result of the cordial co-operation of amateur and professional astronomers in successfully observing the total solar eclipse of the preceding New Year Day. It seeks to continue that association both as a scientific and as a social force. The new society is designed to be popular in the best sense of the term. Any person who takes a genuine interest in astronomy is invited to join its membership, whether he has made special studies in this direction or not. It is believed that every such person will get, and will feel that he gets, a full return from the society through its meetings or through its publications. Quite a number of ladies are members of the Society. Three meetings a year (March, November, January) are held in San Francisco at the rooms of the society (California Academy of Sciences Building, 819 Market street) and three meetings (May, July, September) are held at Mount Hamilton, where an opportunity is afforded to the members to see and use the instruments of the Lick Observatory. The society has a membership of more than four hundred.

The Publications are printed in octavo form at irregular intervals; two hundred or more pages a year may be expected. The Publications contain papers read before the society (either in full or in abstract) many plates, etc., the minutes of the meetings, and also notices from the Lick Observatory, which are brief and popular accounts of the current work of that establishment prepared by members of the observatory staff. Such notices have previously been printed in various astronomical journals, but in future they can be found in full only in the Publications.

The Publications of the society are sent (in exchange) to about one hundred observatories and academies of science. They can be obtained also by joining the society (dues, \$5 for each calendar year, no initiation fee; life membership, \$50). A diploma is issued to members. PUBLIC STREETS, AVENUES, SQUARES, PLACES,
OF THE CONSOLIDATED
CITY OF SAN FRANCISCO,

IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872
AND SUBSEQUENT ORDINANCES

EXPLANATORY.—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 401, 201, and 301, in a similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this Order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clementina, Ecker, Jessie, Minna, Natoma, Ridd, Sulpley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Forty-ninth avenues, and those running east and west, from First avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hoadley's Addition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission Dolores; Western Addition, west of Larkin; San Miguel Ranch, southwest and near the Mission Dolores; Bernal Heights (B. H.), south of Twenty-sixth Street, between San Bruno and San José Roads; and University Mound Tract (U. M. T.), west of San Bruno Road, five miles from the City Hall. See, also, Prominent Places, end Street Directory.

(b) Street not opened. (c) Fractional blocks, one hundred numbers allowed for first two blocks. (d) Fronting the bay. (e) Street ends. (—) Street does not cross. B. H., Bernal Heights. U. M. T., University Mound Tract. S. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.

NOTE WITH REFERENCE TO SOUTH SAN FRANCISCO STREETS.—The names of the Avenues in South San Francisco have been changed back by an ordinance of the Board of Supervisors to the original numbers with the addition of the word South. For instance: Fifteenth Av. South, formerly Tenerife St. The cross streets which were originally lettered were some years ago given names in place of the letters, and such change still remains in force.

LANGLEY'S

San Francisco Directory

PUBLISHED ANNUALLY, IN MAY.

PRICE, FIVE DOLLARS PER COPY.

There is no other city directory, consequently its circulation is as large as the population of San Francisco. In fact, it is larger, because it circulates all over this coast, and many copies go to the East. It is not thrown away like a paper, but is kept for a year where it can always be referred to.

Four courses, Commercial, Shorthand, Telegraphy and English. Oakland is the educational center of the Coast. Just far enough from San Francisco to be away from the evil enticements of a large city. Terms, one year, \$100; 6 months, \$60. Send for prospectus.

AYDELOTTE'S

Business College,

Y. M. C. A. BUILDING,

Oakland, Cal.

A THOROUGH Commercial Training School, up to date in every particular. Fine rooms in a new building, which were arranged expressly for the school. Young men and women thoroughly fitted for positions or equipped for their own management of their own business. There are pupils in this school from California, Nevada, Oregon, Washington, Idaho, and Montana. Its graduates are scattered all over the Pacific Coast; in the Banks and Railroad offices of San Francisco, Express and Post Offices, Commission houses, and in every line of business from the largest houses to the retail shops.

The four departments, Commercial, Shorthand, Telegraphy and English, include every subject that is usually taught in the modern Business College.

Oakland offers many inducements to the student. Its equable climate, its beautiful homes and its general surroundings make it an ideal school town, and it is the educational center of the Pacific Coast. It is a thriving city of 60,000 inhabitants, and is connected by a veritable net-work of cable and electric street railways with all the suburban towns and contiguous districts, reaching by electric line as far as Hayward, ten miles away. Berkeley, the seat of the State University, and Alameda, across the Estuary, both little cities of 10,000, are within a few minutes' ride from Oakland. Cars pass the college doors.

GENERAL INFORMATION.

There are no vacations. Pupils can enter at any time. Those not sufficiently advanced for the regular course can enter the English Department for a while and coach up. Individual instruction for all. Punctuality and regular attendance insisted on. Strict discipline and a close watch of the student's progress. Board and room can be had in the city at \$5.00 and upwards per week. We do not promise or guarantee positions for our graduates, but we do all we can for them in this regard. We are constantly putting students into positions. Business men frequently call at the College for help. No extra charge for any branch taught in the college. \$100 for 1 year, or \$60 for six months, pays for any combination of studies. Books and stationery for the Commercial course cost from \$15 to \$20. Further information may be had by addressing the Proprietor and Manager.
